

SMART-TORQ® & DRIVER MASTER SET

MASTER GRADE® GUNSMITHING DRIVER & BIT SET.

This intelligently designed Master Set includes both the Smart-Torq and Smart Drive™ gunsmithing drivers. With ergonomic comfort grips, both drivers fully integrate with the multi-purpose Force Assist™ driver. Smart-Torq features easy-to-see and set 1 inch-lb increments. For non-torque applications, the Smart Drive will be your go-to for not only gunsmithing work but any tasks around the house or shop. Smart Drive has a free-spinning cap for applying additional downward pressure and an LED light for dark spaces. Completing the set are 83 standard and metric black oxide coated gun bits. Gun bits are hollow ground and square cut for precise fitment.
